

REECE THATCHER

EDUCATION

09/10—06/11	GCSE's , Battersea Park School—401 Battersea Park Rd, London, SW11 5AP			
	• Mathematics		• Media (BTECH)	
	• English Literature		• Performing Arts	
	• English Language		• Religious studies	
	• Double Science		• Physical Education	
09/11—06/14	A-levels , Battersea Park School (Sixth Form)—401 Battersea Park Rd, London, SW11 5AP			
	• Mathematics	(A)	• Chemistry	(A)
	• Physics	(A)	• Business (BTECH)	(D*/D*/D)
09/15—09/18	Degree , Kings College of London (Strand Campus)—BSc degree in physics. Throughout my studies, I have acquired a number skills that allow me to tackle various problems. I have learnt two programming languages, Fortran and C++. I learnt how to produce particle collision simulations from real data collected at CERN, and then used the data to extract variables about the particles produced in the collisions. I have also gained great problem solving skills, allowing me to think critically about new problems and tackle them appropriately.			

Extracurricular Activities

09/12—06/13	Modern Greek For a year I studied GCSE level Greek with a private teacher, which allowed me to grasp the basics of the language and the culture.
09/11—to date	Japanese Language I have studied The Japanese language for 4 years. In the summer of 2014, I took the Japanese Learning Proficiency Test where I achieved grade B for level N5.

WORK EXPERIENCE

Thames Tideway	For two weeks I shadowed an engineer and computer programmer working at Thames Tideway Tunnels. My duties were to learn about the new Thames river system that was being built and how it worked to make the Thames cleaner.
Math Tutoring	From 2013-2014 I tutored a group of GCSE level of mathematics students. I had to organise and teach various topics in mathematics that correlated with the subjects they were studying.

Customer Service	From 08/2017-01/2018 I worked at Itsu in Victoria street, doing customer service work.
Retail	<p>In 08/2018-10/2019 I worked as a Sales Associate at Reiss; providing thorough knowledge and unique recommendations tailored to each customer.</p> <p>11/2019-to date I am working as a suit specialist at Suitsupply. I am an expert in the technicalities that go into finding the perfect fitting suit, for the right body type, and also the best materials for the occasion that the client requires it for.</p>

Skills

Programming languages	Throughout my studies at university and independent study, I have learnt languages such as Fortran, C++, and JavaScript.
